NucoreVision, Inc. Awarded GSA MOBIS Contract

Washington, D.C., December 23, 2009 – NucoreVision, Inc. (www.nucorevision.com), a premier provider of Cyber Security, Management & Consulting and Enterprise Technology Solutions, has been awarded a five year contract on the General Services Administration (GSA) Mission Oriented Business Integrated Services (MOBIS) contract, a multiple award schedule, **GS-10F-0081W, SIN 874-1**.

NucoreVision President and CEO, Ted Fells, said “This contract award will enable government agencies to quickly procure our proven Management and Consulting services and solutions to meet their mission goals. We look forward to the prospect of providing expanded services for our existing customers and developing relationships within new areas.” Services offered under this contract include:

- Program Management
- Strategy and Management
- Business Rules Development
- Knowledge and Decision Management
- Performance Assessment and Improvement
- Program Support
- Contract Administration

The MOBIS contract award reflects NucoreVision’s unwavering commitment to customer satisfaction and process improvement, building upon the strong portfolio of services currently available under GSA IT Schedule 70, 8(a) STARS and other GWAC/IDIQ contracts.

NucoreVision’s price list is available on the NucoreVision, Inc. website, www.nucorevision.com and through the GSA Advantage website, www.gsaadvantage.gov.
